**CTDC Index of Human Trafficking Open Data Sources**

The Index of Human Trafficking Open Data Sources provides a list of publicly available data sources on human trafficking.

Building on desk research and inputs from IOM country and regional offices, this index presents reports, datasets, and web pages with case data reported by governments and relevant organizations handling human trafficking cases. The index is sorted by `Geography` and `Year of publication`. Global and regional data are labelled as "ZZ_Multiple".

This version includes 326 sources from 58 unique countries/territories from 1990 to 2021.
